PROFILE

6 years of IT exposure in Automation & Manual Testing domain. Having hands on experience in creating Automation Scripts through **Selenium WebDriver & Java** with code modularity and reusability in an Agile Environment.
Proven Consulting and Client handling skill demonstrated through successful international and domestic engagements.

- Achieved on the spot TCS award for creating effective automation testing tool in limited time.
- Expertise in developing automation scripts using **Selenium WebDriver with java/Junit/TestNg.**
- Managed testing team for biggest South African client to go live with latest version of TCS BaNCS. Also, helped and reviewed testing team in writing selenium scripts for automation testing which helped the mentioned product to go live successfully and error free.
- Automation testing done for **Corporate Action** events through **TCS Bancs** Web application.
- Good Understanding of **Software Testing Life cycle**(STLC) and defect lifecycle.

💼 EMPLOYMENT HISTORY

SENIOR AUTOMATION TEST ENGINEER
TATA CONSULTANCY SERVICES
DECEMBER 2016 – SEPTEMBER 2021

- Created NRT (**Non-Regression Testing tool**) framework independently for one of the biggest European Customer.

- Created automation script by using **Selenium Web driver** with **Java** for NRT regression suite to perform functional and data driven testing for application, TCS BaNCS in my case.
- Discussed and gathered requirements with customer so as to design the required and efficient test cases to effectively automate testing on required Web Application.
- Executing regression test cases (Manual and Automation) through NRT on daily basis for complete week and then generating NRT report using **TestNG** which was then shared with customer as a Status report.
- Analyze the difference shown by above report and sharing the same with the development team Manager.
- Worked on SQL as well for testing TCS Bancs Web application.

TESTING LEAD AT CLIENT SIDE
TATA CONSULTANCY SERVICES
OCTOBER 2021 (JOHANNESBURG, SOUTH AFRICA)

- Worked as a Corporate Action production support for one of the biggest south African Client.
- Identified multiple change requests in project scope that are added as a part of product enhancement and Client's functional requirement.
- Worked on multiple Defects raised by client during SIT (System integrated testing) & UAT (User Acceptance testing) Cycles in demanding environment with tight deadline.
- Develop good relationship with Clients, Project team, Third Party Vendor, Off-shore team memberswhich helped to prepare learning documents of additional information.
- Good understanding of end-to-end Automation and Manual testing concepts and methodologies.
- Manage multiple Automation related queries raised by client during Go-Live activity.

🎓 EDUCATION
BACHELOR OF ENGINEERING, MECHANICAL

Govt Engineering College Ujjain
2013 – 2016
